Our Story

We built & designed the Barrelroom by hand to create the perfect experience. It starts with the beautiful wood barrel ceiling, to the tables and bar that came from a single tree. The teams vision on service, is as they would want to be serviced – good is not good enough. As far as food, beer, wine and spirits – we listen closely to the guest and provide only the best of these categories.

Our story is simple... we love to create a great experience for people.

Your friends – Barrel Room Team
