Eighteen members and their navigators from Oregon Region PCA met in Forest Grove on Thursday, August 6th for a day trip to Cannon Beach and a look at this year's

Street of Dreams.

President Carole Hedstrom started things off with introductions of new members followed by a briefing from our tour director. Then we hit the road toward the coast, via state highways and secondary roads, passing through

Vernonia with a comfort stop at the Jewell Meadows Wildlife Area, known as a prime elk viewing spot. We didn't see any elk, just a very friendly older chocolate Lab that was happy to see us.

After arriving in Cannon Beach, we toured two new homes that are featured in this year's Street of Dreams. Our host welcomed us and gave us a brief overview of the Street of Dreams and the houses that we viewed. From there our group broke up with some heading to the beach for a walk and others finding dinner locations in Cannon Beach. A nice way to spend a day! ■
